Summary

AI Researcher/Scientist with 8+ years of hands-on experience in Recommender Systems (RecSys), has focused on conversational and sequential recommendation. Proven track record in ideation through published 10+ papers in top-tier AI/ML venues (e.g., [KDD](#), [WWW](#), [CIKM](#), [RecSys](#)) and the Best Ph.D. Dissertation award. Honored with multiple paper awards and OpenAI research credits. Currently at Microsoft as a senior applied scientist, focusing on enhancing on-device LLM performance.

Employment

Feb. 2026 – Present	Microsoft <i>Senior Applied Scientist</i> - Researching post-training quantization on LLMs (e.g., Qwen, LLaMA, etc.) for on-device settings.	Redmond, WA, USA
Sep. 2023 – Aug. 2025	University of California San Diego <i>Postdoctoral Researcher (Advisor: Prof. Julian McAuley)</i> - Conversational RecSys by post-training LLM/VLMs (KDD , 2025). - Calibrated sequential RecSys for covering diverse user interests (CIKM , 2024). - Efficient conversational RecSys with neighborhood-based approach (RecSys , 2024). - Collaborated with industry partners (Netflix, Snap, Toyota) on advanced RecSys solutions.	San Diego, CA, USA
Jul. 2020 – Aug. 2020	Hyperconnect <i>Research Intern</i> - Explored large-scale recommendation algorithms to optimize user engagement. - Implemented a prototype of reciprocal recommendation.	Seoul, South Korea

Education

Aug. 2023	Seoul National University <i>Ph.D. in Computer Science & Engineering (Advisor: Prof. U Kang)</i> - Best Ph.D. Dissertation Award	Seoul, South Korea
Feb. 2019	Seoul National University <i>M.Sc. in Computer Science & Engineering</i>	Seoul, South Korea
Feb. 2017	Hanyang University <i>B.Sc. in Computer Science & Engineering</i>	Seoul, South Korea
